Redefining Service – A Fine Art

Service & Style Etiquette

The art of service has been long since revered as a skill of the highest level. Perhaps most famous in 5* hotels and Michelin star restaurants, service has been developed and fine tuned to the highest degree. VIP and HNW clients now seek to have this same level of perfection within their private residences, leading to a sharp increase of service and Silver Service training. Polo & Tweed are leading professionals in the art of service. We welcome you to redefine how you approach service.

Our Trainers

Polo & Tweed trainers are of the highest calibre. They have worked professionally for many years as Butlers and understand that service is a fine art, skills that should be honed and developed with care and consideration. We have a range of trainers to suit a variety of client's preferences, from the quintessential traditionally British Butler, through to the modern, young and unique Butler. However the household is run, our trainers can guide the right approach to service to suit the needs of the principal.

Our Approach to Training

Polo & Tweed believes that the quality of the training is key to deeper understanding. We teach in either private one-to-ones or small groups, as we believe that this way the student is able to ask as many questions and spend as much time as they require on the areas they find challenging. Each student is unique, and we understand that with many students English is a second language, therefore we give them the support and guidance they need. Practical application is key, and although we encourage students to take notes, we focus the training on practical application. After all service is a fine art and must be practiced until perfect!
